Longwood Software Announces 2012 Usage Statistics for RevBase® and ForFile®

Maynard, MA – January 3, 2013 - Longwood Software, Inc., developer of the RevBase® marketing asset management solution (www.revbase.com) and the ForFile® file transfer service (www.forfile.com) announces usage statistics for the company's software-as-a-service (SaaS) offerings for the year ending December 31, 2012.

RevBase: Marketing Asset Management

Customers use the RevBase SaaS solution to manage their digital, print and physical marketing assets; share them across their organizations; and distribute them to sales teams and customers. They also use the system to serve their customers via the web with eCommerce and compliance applications.

A wide range of industry-leading companies use the RevBase SaaS application, which was introduced in 2000 and has been enhanced on an ongoing basis since.

- In 2012, customers' SaaS RevBase applications were accessed over 1.8 million times during the year.
- Customers added over 16,700 user accounts to their RevBase applications during the year, a 90% increase over the number of new accounts in 2011.
- Customers added over 83,280 assets to their applications in 2012, a 10% decrease from 2011. However, the total uploaded data volume in 2012 was 179GB, a 58% increase.
- Total downloads from RevBase SaaS applications in 2012 exceeded 1,315,000 (an increase of 24% over 2011), with a total download volume of 3.9 terabytes.
- Orders placed via customers' RevBase shopping carts were 71,000, essentially the same as in 2011.
- Service uptime – after accounting for both scheduled maintenance periods and non-scheduled (emergency) maintenance periods – exceeded 99.9% for the year.

ForFile: File Transfer Service

Customers use the ForFile SaaS solution to transfer large files securely via the web. In 2012, a wide range of businesses used the ForFile service in North America, South America, Europe, Asia and Africa. Save The Children Federation used the system on a global basis under an enterprise right-to-use agreement.

- Customers transferred over 42,500 files in 2012, a decrease of 11% over 2011.
- Upload data volume for 2012 was 586GB and download data volume was 957GB, up 1% and 15% respectively over 2011.
- Service uptime – after accounting for both scheduled maintenance periods and non-scheduled (emergency) maintenance periods – exceeded 99.9% for the year.

“2012 was another solid year of customer use of our SaaS offerings,” said Scott Richardson, president and CEO of Longwood Software. “We’re pleased that many leading marketing and sales organizations expanded their use of RevBase to include high-profile public web applications. We also expanded our innovative capabilities for asset customization and full text search, which have been well-received by customers. We look forward to introducing additional new features for our customers in 2013.”
